29. Chris Hadfield
Space Lullaby
30. Sun

Space Jam Video

31. Rocket Man
Finale

Director's Note

To be at Lakie is to know you are part of an incredible community, and the creation of LUNA wasn't possible without the collaborative efforts of so many in this community. Bridging the two very different worlds of art and science became the aim of the show, and in doing so, we were able to engage over 200 students in the process. From robotics, to drama and art, from Grade 6 Sky Science to choir and guitar, and finally, from costume design to videography—so many disciplines came together to make this show a reality. It has been my pleasure to collaborate with all the talented people needed to build LUNA.

Not only do we have Lakie superstars in the show, but we even had the honour to collaborate with Canada's first astronaut to walk in space, Chris Hadfield. In doing so, Hadfield has inspired us with many life lessons that the students can take away and apply to many different areas of their life.

I appreciate his message, "I wasn't destined to be an astronaut. I had to turn myself into one." His inspiring words remind us of the hard work and determination that is required to achieve our goals.

A big thanks to all the performers for their hard work in preparation for this show including our guest performers from YQL West Movement. Congratulations to our Grade 8 students graduating from our amazing school this year. It's going to break my heart to see you go, but please know that I am very proud of your growth these past three years. I hope you continue to take care of your Lakie family.

We hope you enjoy our presentation of LUNA and thank you for supporting arts in education.

Sincerely,
Kristi Legge

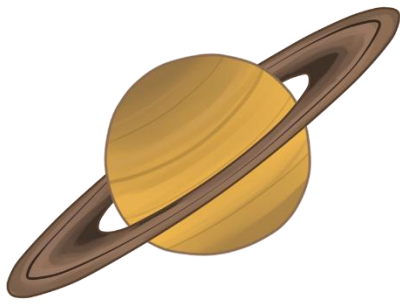

Robotics Collaboration

The G.S Lakie Robotics and Coding Club has included approximately 100 students over the last five years. Students have worked on a variety of platforms to develop video games, apps, 3D design as well as basic engineering and programming through Lego Mindstorms and Meccano Robots. Our first collaboration with the Fine Arts Program was during the Aladdin production when a student developed an animated 3D Cave of Wonders! This year students are very excited to be a part of the Luna Dance Production as they introduce their intelligent Meccano Robots Ghost and Oakland to the world. A team consisting of, Robbie Conrad, Reid Decillia, Michael Kossuth, Riley Gillis, Logan Campbell, Angus Lyle and Natalie Pitcher spent countless hours building, wiring, and programming their creations as Mrs. Legge worked with them to choreograph their amazing movements! We are very excited to see what collaborations will occur in the future!

- Joseph Wright

*If you're ever feeling lonely, just look at the moon.
Someone, somewhere, is looking at it too.*

Thank You

To our amazing

Sponsors!

For making this show 'out of this world'

MNP

Johnson Controls

Once Upon a Bride Ltd.
"Where fairy tales come true"

A special *thank-you* to the following people for help and generosity towards
this production

- Dave Legge
- Legge's Exteriors Contracting Ltd
- the Scales Family
- Ross Jacobs
- DocJakes Photography
- Serena Ketel
- Jen Aquila
- Jen Wilde
- Geordan Olsen
- Kristi Wolsey
- Raila Duda
- Jodi Babki
- Darcy Fitzhenry
- Hayat Macwik
- Wanda Gagne
- Daelynn Takasake
- Niinapiiksi (Mike Bruised Head Family)

We would like to recognize that some of our dance students train at other dance studios in Lethbridge. We are grateful to work with your students and we thank you for being flexible with your schedules these past two weeks!

Check out:

<https://www.kristileggedance.ca>

We are located Bay 4, 561 41 Street North
Call 403-315-0543 for more information

We offer:

- Batting cages for baseball, slo-pitch, and fastball
- Baseball camps for kids of all ages
- Private training sessions
- A full strength and conditioning area
- Party rentals

Good Luck to our Lakie Musicians on their
upcoming trip to Nashville in May!
